# Faris Kovač

## QUALIFICATIONS

---

- Able to code web pages from the ground using HTML,CSS,Bootstrap,jQuery and JavaScript with React Native. Along with working proficiency of the Git version control,Word Press content management,Linux command line,and file transfer protocol (FTP) procedure.
- Fundamental understanding of mobile first design concepts,cross browser development,API implementation and search engine optimization (SEO)
- Customer service experience grants me the ability to easily communicate with clients and fellow developers to establish the necessary requirements to complete projects in a professional and time-efficient manner.

## SKILLS

- |              |           |             |
|--------------|-----------|-------------|
| • HTML 5     | • ReactJS | • BOOTSTRAP |
| • CSS        | • jQuery  | • SQL       |
| • JavaScript | • SEO     | • Linux     |

## RELEVANT EXPERIENCE

---

### **FreeLance Web Developer**

*Sept 2022-present*

Independent Freelancer

- Designed and created client websites from start to finish using current technologies and design trends while optimizing content for mobile and cross browser performance.
- Personally consulted clients with design suggestions and hosting recommendations in order to create a design based on client requests and business needs.

### **Remote Junior Full-Stack Developer**

*July 2022*

**Intern(summer school)**

- Participated in major front-end clean-up project where I refactored HTML CSS and Bootstrap to enhance functionality and overall site performance.

- Redesigned sections of the website to ensure a more attractive and user friendly experience.
- Working directly with CTO to conceptualize and implement front-end design and functionality to optimize UI/UX on existing website content

## PROFESSIONAL PROFILE

---

- The primary focus of my studies in web development has been HTML, CSS, Bootstrap, JavaScript, jQuery and some PHP. I have created multiple websites and I have also volunteered my time to gain professional level experience using these skills. I recently turned my focus to furthering my JavaScript skills by working more with vanilla JavaScript and learning ReactJS
- I have knowledge of modern web design concepts like mobile first design, cross browser compatibility, search engine optimization and page optimization.
- Plenty of daily use of Git for version control via the Linux command line interface, backing up my work to GitHub on a regular basis.
- I have an understanding of object-oriented programming with JavaScript as well as JSON knowledge.
- One of the first websites I created was a brochure website for my friend.

Please refer to my website for samples of my work and my full resume =>
